## **METRO ONE SIGNS NEW CONTRACT WITH SOTTO WIRELESS**

PORTLAND, Oregon – March 14, 2007 – Metro One Telecommunications, Inc. (Nasdaq: INFO), a developer and provider of Enhanced Directory Assistance® (“EDA”) and other enhanced telecom services, today announced that it has entered into a contract to provide EDA and other services to customers of Sotto Wireless, a hosted communications service provider to the small to medium-sized business market .

Under the terms of the agreement, Metro One Telecommunications will incorporate a directory assistance function into Sotto Wireless’ hosted service. The addition of this function will enable a necessary component for nearly every Sotto customer sale. Sotto Wireless provides a web-based hosted service to its customers where employees have a single number and voicemail for office and mobile calling – as well as wireless email and messaging. Sotto’s Service Manager web-based application provides a simple means to control and manage all communication activity for office and mobile users.

“Metro One was able to deliver the technical solution we needed to service our customers using our Wi-Fi solutions over VoIP,” said Sid Roberts, Sotto’s Director of Network Implementation. “The combination of a best in class customer service reputation along with a solid existing infrastructure and advanced technical abilities made the decision to choose Metro One obvious. We are looking forward to a lasting business relationship.”

“Sotto Wireless provides a unique service to the underserved small to medium-sized business market,” said Gary E. Henry, president and chief executive officer of Metro One Telecommunications. “The Company combines cellular and office phone services into a simple hosted service which brings real value to this market segment. We are excited about providing our directory assistance solution as part of the offering.”

### **About Metro One Telecommunications**

Metro One Telecommunications, Inc. is a developer and provider of Enhanced Directory Assistance and other information services. The Company operates call centers located in the United States. Metro One handled approximately 231 million requests for information in 2005. For more information, visit the Metro One Telecommunications website at [www.metro1.com](http://www.metro1.com).

### **About Sotto Wireless**

Based in Bellevue, Wash., Sotto Wireless provides small and medium-sized businesses with a hosted communications service that combines the mobility of cellular phones with the functionality of office phone systems into one simple service. Sotto’s service platform includes the latest phones and integrated Web-based management tools – transforming customers’ communications into a competitive asset. The company was founded in 2005 by an experienced group of senior leaders and veterans from the wireless and telecommunications industries and is funded by Ignition Partners and VantagePoint Venture Partners. For more information on Sotto Wireless, visit [www.sottowireless.com](http://www.sottowireless.com).
